

# BIODIVERSITY

**Monitoring:** over **1000** volunteer hours

• Butterfly transects:

**3** Barnes Common **1** Leg o' Mutton, **1** Palewell

• Invertebrate surveys

• Bird surveys

• Audiomoth bat surveys

**Citizen science projects:**

• Bioscan DNA barcoding – studying the genetic diversity of 1 million flying insects

• Smart Rivers survey monitoring river health

• Riverfly Monitoring Initiative (RMI)

• UK Butterfly Monitoring Scheme

# NATURE CONSERVATION

**1,939** volunteer hours

• Managing over **200** acres across **4** Local Nature Reserves/Sites of Importance for Nature Conservation

• Woodland restoration work across

**120** acres of woodland

• Managing **8** ponds across the borough to maximise benefit for wildlife

• Managing **12** acres of Lowland Acid Grassland – scrub removal, added **2** new soil scrapes

• Habitat improvement and survey work on over

**1.3** km of the Beverley Brook

• Beetle boxes installed for saproxylic insects

• Extended Hedgehog Superhighway to connect more gardens in Barnes

Volunteering as a citizen scientist means I get to learn a lot about freshwater invertebrates while making a difference for our environment and river's health

**Citizen scientist volunteer**

Such an inclusive and welcoming group, I really enjoyed working with them. Simply being in nature is wonderful for my well-being!

**Conservation volunteer**

**£109k**

Surplus

**1,570** Members (Keystone **78**)

## Impact Statement 2025

**Barnes  
Common**

### Introduction by Adrian Podmore, Trustee

We are very pleased to provide our impact statement for 2024/25, which does also include some more recent events.

We hope this leaflet not only gives you a more immediate picture as to our continuing progress but also provides an illustration of the breadth of our ever increasing activities.

Certainly, our ecological monitoring is at the forefront of aiding a recovery in biodiversity and is key in determining ongoing site management. Lifelong learning is fundamental to our goal of

engaging more people with nature where we are reaching more schools and educational organisations each year. Finally, the combination of our community engagement and wellbeing activities are, we believe, making a substantial contribution towards Social Value for Barnes and its residents.

We very much look forward to your continued support.

# LIFELONG LEARNING

Engaged **7** primary schools **4** secondary schools  
**1** university  

**1,467** young people and **372** adults took part in  
**24** community and **49** school learning activities

## New activities

- Eco-Explorers Bats & Moths Workshop extending the offering of our successful Eco-Explorers Summer Camp 
- Family EarthWalk 
- Pip Organic Community Nature Walks 

## New school activities

KS3 and KS5 Geography, KS2 Wassail activity,  
Green Careers talk at West London Free School. 

“ Very enjoyable and informative couple of hours with your knowledgeable guide. Learned loads and will view the Common now with new eyes!  
Tree Walk attendee ”

# COMMUNITY ENGAGEMENT

Events engaging **1245** adults   
**526** young people **68** volunteers

Hosted **115** events  

Hosted 4th Autumn Fayre in **2025**   
with **750** attendees

 Barnes Community Gardeners –  
over **1000** hours of volunteering 

 Leading on the Vine Road Project, an innovative scheme to rejuvenate the park

**2019**

Queen's Award for Voluntary Service

“ That was a wonderful walk – I thought I knew Barnes Common as I live so close - but a complete revelation! Mike was so knowledgeable, so much fascinating information!  
History Walk participant ”

# WELLBEING

The Vine Road Community Growing Project won the Community Project of the Year Award at Richmond Council's Community Heroes Awards.

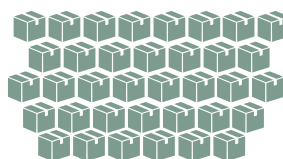

**719** young people attended the project   
**1,251** volunteer hours (including Duke of Edinburgh)

I can highly recommend these sessions, my kids absolutely loved it ...  
It was a brilliant, wholesome afternoon!  
Parent at after school club

**36** deliveries supplied to the food bank at Castlenau, supporting about **10** families.

Partnerships with RB Mind, Age UK Richmond, Tram House School (Beyond Autism), ACAT (Hammersmith – supporting young people with autism)

# COMMUNITY BLUESCAPES

Innovative flood resilience project - a partnership between LBRUT, WWT and BCL, funded by DEFRA. 

An innovative new flood resilience street, the Kitson Road scheme won the Steve Berry Highways Authority Innovation Award 

## Barnes Green Restoration Project

- new channel for the Beverley Brook
- new island improves biodiversity • dog beach 

## Learning

Engaged **4** local schools, **122** students in the CBS learning programme 

## Citizen Science

New water quality monitoring of the Beverley Brook: 

**12** volunteers, **6** sessions

New E. coli testing program: **10** volunteers, **8** tests 

Completed a **6** week River Condition Assessment training course: **10** volunteers, **1** completed survey

It's thanks to passionate volunteers who have gathered data on the quality of our waterways that we now know just how much water companies are failing the public and the environment.  
I'm pleased to play a small part in that ceaseless effort.

Water quality testing volunteer
